

Topography

The Hollister blocks feature the historic HMR clone in limestone soils, while Baggett Vineyard, encircling the winery, is planted to Dijon clone 115 in sandy loam shaped by prevailing coastal winds.

Appellation

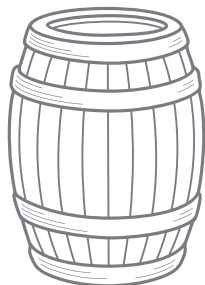

Showcasing the diversity of terroirs and clones planted at Edna Ranch, grapes for this wine came from the Hollister Vineyard of Edna Ranch in Edna Valley, located just five miles from the Pacific Ocean.

Winemaking

After optical sorting and destemming, grapes were cold soaked for three days before fermentation in 100% stainless steel tanks at moderate temperatures.

Fermentation

This wine was then aged for ten months in 100% French oak, 22% new.
